

## GJS-PMDM05

GJS-PMDM05A outer    GJS-PMDM05A inner

GJS-PMDM05B outer    GJS-PMDM05B inner

GJS-PMDM05 is an excellent mechanical seal dome type closure. It's has following features:

- Reinforce rebar on the body of closure make excellent performance under impact, pulling, tension etc
- Convenient to increase or reduce trays/ cassette for capacity requirement
- Spacious storing tray/ cassette for storing and maintenance
- 3 fixing item/designs to prevent fiber cable from external effect
- Can be used from 40 °C to +65°C temperature range
- Easy to re-enter without tools
- Integrated seal, air tight and water proof, flame-retarded
- Exquisite small Dimension design, convenience installation application
- SGS RoHS test certificate
- Suitable for aerial, underground duct or direct burial applications

GJS-PMDM05 Specification sheet:

Item#	Dimension mm D×H	Cable ports	Cable Diameter	Max. Capacity (bunchy fiber)	Core capacity per tray	Sealing structure
GJS-PMDM05A	Φ178×288	4	4 ports for Max.Φ16	48	12F capacity tray available	mechanical seal
